Advisor, Healthcare & Employee Benefits

Description

The U.S. healthcare system is a dynamic landscape – full of insurance companies, health systems, TPAs, PBMs, and all of the other acronyms. Put simply, we help employers engage this ecosystem from the ground up, to make it work for them – and not the other way around.

We know that insurance is a commodity – remarkable service is not.

On our team you will:

- Provide consultation to clients on strategy, emerging trends, and managing their benefit program.
- Pursue prospective benefits clients.
- Collaborate with our service team to execute our clients' benefits strategy.

Experience & Skills

We hire for what you will do, not what you've done already. Successful advisors on our team come humble, hungry, and people smart. We expect that all our team members are committed to continuous growth and improvement.

We work according to a set of principles that keep us focused on connecting with people; creating remarkable experiences for our clients and team; and taking the necessary risks to improve and simplify business.
