

More. Opportunity.

More Opportunity.

Advisor, Risk

Description

Commercial insurance and risk management is a dynamic and complex – full of insurance companies, captives, MODS, loss runs – and all of the other jargon. Put simply, we help employers cut through the noise and simplify how they take risk, capitalize on opportunity and do business.

We know that insurance is a commodity – remarkable service is not.

On our team you will:

- Provide consultation to clients on strategy, emerging trends, and developing their risk management program.
- Pursue prospective clients.
- Collaborate with our service team to execute our clients' risk management strategy.

Experience & Skills

We hire for what you will do, not what you've done already. Successful advisors on our team come humble, hungry, and people smart. We expect that all our team members are committed to continuous growth and improvement.

We work according to a set of principles that keep us focused on connecting with people; creating remarkable experiences for our clients and team; and taking the necessary risks to improve and simplify business.
